Proletariat.
The proletariat in Russia is used to denote the lowest and poorest classes. It is derived, through the French, from the Latin proletariat, the name given in the census of Servius Tullius to the lowest of the centuries, who were so called to indicate that they were valuable to the state only as rearers of offspring. The word has come much into use in the literature of socialism.

Easter Sunday

ST. THERESA'S CHURCH

At St. Theresa's church there was the usual large attendance. Mass was said by Fr. Boivin, who spoke interestingly and impressively concerning the day and its meaning.

AT THE CONGREGATIONAL CHURCH
The Easter services at the Congregational church last Sunday morning were very impressive and full of interest, from the fact that 17 were received into membership—11 on confession and six by letter—the largest number in the church's history. There was a large attendance. The church was very prettily decorated with plants and flowers and the chorus choir rendered extra fine music, two very appropriate anthems being among the number. Pastor Mercer delivered a scholarly discourse upon the resurrection, taking for his text Matt. 28, 2. Before the sermon four children were baptized, the baptismal font, presented by Mrs. E. G. Page in memory of her son Carroll, being used for the first time, and the first child baptized was Carroll S. Page, 2d, a grandson of Senator Page. At the close of the sermon the 17 candidates were received into membership, which was followed by communion.

The Y. P. S. C. E. service in the evening was especially interesting, the topic being in keeping with Easter. A large attendance and many taking part.
